

The Challenged Athletes Foundation was created on the belief that people of all abilities should have the opportunity to pursue a life full of physical activity and of sports. Be they recreational or in pursuit of a gold medal at the Paralympic Games, people with a physical disability are limited only by their access to funding.

As one of the very few charities that provides grants directly to athletes with a physical disability, the Challenged Athletes Foundation has raised over eleven million dollars and directly assisted over 2,100 challenged athletes world wide. An endowment fund has been created to ensure challenged athletes will always have a place to go for support.

Yes! I will make a contribution to help Challenged Athletes Foundation, the Official Charity of Planet Ultra.
